

**For year 2+ schools**  
**select and copy the text and then paste it into a new document.**

**Peer to Peer Nominations**

As Peer Leaders we would like your assistance in identifying students to add to the Sources of Strength team. We are especially interested in students from different types of cliques and groups who have influence and sway with their peers within the school. This process is not a popularity contest. In fact, we want representation from the entire student body, including all styles, interests, characters, and personalities from all different types of social groups. Ideal participants are individuals who are natural leaders with specific influence within their group or clique. While this might include students who are already involved in leadership groups and activities, it also includes students who don't typically join in on these kinds of activities, but in your opinion, have an influence amongst fellow students and would be perfect for this team.

Your suggestions on which students should participate are greatly appreciated. List the students that you recommend below and return this form to the your Adult Advisors. After we review all peer recommendations, we will make contact with chosen students before moving forward with nomination.

Thank you for your recommendations.
